

PLAN FOR PEACE IN NEAR FUTURE

PEACE PARTY EXPECTED TO
LEAVE WITHIN FEW HOURS
FOR CONFERENCE.

GOVERNMENT GIVES PERMISSION
FOR EXCHANGE OF CODE
TELEGRAMS.

STARTS SOON FOR CHIHUAHUA

Automobiles Engaged to be Ready at
Moment's Notice, and Photogra-
pher Will Be There with
Camera at Departure.

El Paso, Tex., April 8.—The peace
plan of Francisco I. Madero, Sr., is
working out splendidly, according to
those in position to know.

It is claimed that the plan of the
father of the insurrecto chief is to go
from El Paso to the camp of his son
near Chihuahua. An exchange of tele-
grams has been in progress all this
week between Mexico City and the
senior Madero in El Paso, and it is de-
clared that the demands of the insur-
rectos have received such considera-
tion at the hands of the Mexican fed-
eral government that the peace party
can leave in a few hours for Chihua-
hua. However, they have been ex-
pecting to leave "tomorrow" for sev-
eral days and the trip may not start
as soon as is generally expected. Ne-
gotiations went so far, however, that
two automobiles were secured to be
ready at a moment's notice, and a
photographer was engaged to hold
himself in readiness to photograph the
party as it leaves.

It is stated that the Mexican federal
government has given permission for
the exchange of code telegrams be-
tween the senior Madero and his son
and that they have been in wire com-
munication for two days.

Presbyterians Hold Eighty-First Annual TRUSTEES ELECTED—LADY MEM- BER CHOSEN FROM CHURCH AID SOCIETY.

The 81st annual meeting of the First
Presbyterian church was held Friday
evening in the dining room of the
church immediately following a deli-
cious supper served by the Ladies'
Aid society. One hundred and sev-
enty-five members of the church and
congregation were seated at the ta-
bles.

The meeting was presided over by
Prof. J. Stuart Lathers, the president
of the board of trustees, who reported
that the church was entirely free from
debt which was received with ap-
plause. Prof. Lathers was re-elected
for a term of three years and Mrs.
G. W. Lucking was elected as a lady
member of the board of trustees. It
is hoped that this innovation will
prove to be a great benefit to the
church as it will bring the Ladies'
Aid society into closer touch with the
work of the trustees. The following
reports were given:

Total amount received for church
expenses, \$3,388.42; total expenses,
\$3,348.28.

societies, \$508.31.
Total for Home Missions, \$385.38.

expended, \$516.26.

the year, \$88.66.
The Sabbath school received,
\$280.87.

STERILIZATION IN IOWA

Des Moines, Ia., April 8.—Without a
dissenting vote the senate adopted
the bill of Representative Parkins of
Delaware providing for the steriliza-
tion of habitual criminals, imbeciles,
idiots and feeble-minded confined in
state institutions.

The measure has passed the house
and is now before the governor for
action.

ATTACKS PENSIONS

Philadelphia, April 8.—Franklin
MacVeagh, secretary of the treasury,
attacked the Civil war pension list
and at the same time expressed him-
self as greatly in favor of a civil ser-
vice pension for government employees
in an address at the opening session
of the fifteenth annual meeting of the
American Academy of Political and
Social Science in Witherspoon hall.
"We have a perfectly enormous Civil
war pension list," said the secretary
in the course of his remarks, "which
is not a credit to us. It never had a
scientific or a just basis, although a
worthy motive gave it origin. It has
lost its patriotic aspects and become
a political list, costing the government
about \$160,000,000." Continuing, Sec-
retary MacVeagh said he favored a
civil service pension and that it was a
shame that 200,000 employees of the
government should be unprovided for
their old age.

WAR PAGEANT IS PROJECTED

Chicago, Ill., April 8.—Troops from
eight or ten states, from the regular
army and from Canada are expected to
take part next July in one of the great-
est military spectacles Chicago has
ever seen. Six thousand men will be
in camp in Grant park, on the lake
front, from July 23 to July 30, and an
interesting program is being prepared
for the occasion.

The Chicago Association of Comm-
merce is back of the plan, and it is be-
lieved that at least 400,000 visitors will
be in the city to see the tournament.
The tournament has special import-
ance because it comes on the semi-cen-
tennial of the first year of the civil
war.

British troops invited to come here
from Canada include a company of
highlanders and a company of the
King's Own rifles. Special permis-
sion will be required to permit them
to come here with arms.

In some respects the tournament
will be a repetition on a larger scale
of the military carnival held here last
summer. In addition to the military
maneuvers there will be athletic
games for which prizes will be of-
fered. Ten thousand dollars is to be
spent for the prizes.

Major General Edward C. Young,
commanding the Illinois national
guard, will be in command. Governor
Deneen will review the troops, and on
the stand with him will be many noted
guests. The public stands are to seat
50,000 persons.

An extensive collection of relics of
the civil war is to be placed on exhi-
bition by the Chicago Historical so-
ciety, in connection with the observ-
ance of the semi-centennial of the opening
of the civil war. The exhibition
will be opened in the near future and
will continue throughout the summer.
It will be placed in the society's build-
ing at Dearborn avenue and Ontario
street and admission will be free.

A special meeting of the society is
to be held on its opening. Among the
exhibits will be portraits of men and
women connected with both the north-
ern and southern armies, uniforms,
regimental colors, ammunition, muster
rolls and war time newspapers.

Battle Creek, Mich., April 8.—Fire
last night endangered the lives of
10 girls in Colvin Villa, one of the
largest houses in the city, the fire-
men rescuing them by ladders in the

Miss Sarah Colvan, owner of the
villa, fought against rescue, but was
dragged out by the firemen. Recently
when the Quaker-Oats factory
burned, she remarked that if her
property ever went up like that she

Tuberculosis Tickets On Sale At Churches

APPROVAL OF CARDINAL GIB-
BONS WILL LEAD CATHOLICS
TO HELP.

Tickets for Tuberculosis day will be
placed on sale at the local churches
Sunday.

Cardinal Gibbons, the highest au-
thority of the Roman Catholic church
in America, has expressed his ap-
proval of Tuberculosis day, which is to
be observed by the churches of the
United States on or about April 30th,
and of the general organized anti-
tuberculosis campaign, according to a
report of an interview made public
by the National Association for the
Study and Prevention of Tubercu-
losis.

The Cardinal expressed his entire
sympathy with the plan of the Tub-
erculosis day movement, and endorsed
the program both of the Maryland
Association and of the National Asso-
ciation.

The National Association has pre-
pared an outline for a tuberculosis
lecture or sermon on "Tuberculosis
Day," and also other literature which
will be sent to any clergyman apply-
ing for it at the office of the National
Association, 105 East 22nd street,
New York City, or at the headquarters
of any state or local association in

THREE LADIES ARE INITIATED INTO THE W. R. C. -EASTER SUPPER

There was an excellent attendance
at the meeting of the W. R. C. Friday
afternoon. Mrs. James Clark, Mrs.
Frank Stiltz and Mrs. McQuort were
initiated. The pot-luck supper con-
sisted of baked beans, cabbage salad,
fruit salad, ham sandwiches, assort-
ed cakes, pickles, cookies and coffee.
It was planned at the meeting that
the corps should give an Easter sup-
per on Thursday of next week but, to
avoid a conflict of dates as regards
another supper in the city previously
planned, it has today been decided to
give this supper on the evening of
Wednesday, April 12, instead.

Some Members of Congress Distinguished For Other Reasons Than That They Hold Public Office.

There is an unusual pointing out of members of congress at the present extra session. When Edward W. Town-
send, the new Democratic member from New Jersey, comes along admirers who know him only by sight remark,
"There is the author of the Chimmie Fadden stories you read a few years ago in the New York Sun." Martin W.
Littleton is pointed out as the lawyer who saved Harry Thaw from the electric chair. Caleb Powers has his trou-
bles when introduced because of Massachusetts always attracts the attention of strangers when they are told that he
is the grandson of General Ben Butler. The pointing out of Richmond Pearson Hobson as the hero of the Merri-
mac is an old story, but it keeps up with unflagging interest. Nick Longworth is a good deal of a man on his own
account, but he has to hear frequent introductions with "He married Alice Roosevelt, you know."

DEAD ARE MOSTLY FOREIGNERS

Fire Originated from Unknown Cause
in Engine House 750 Feet Below
Surface, When 300 Men and
Boys Were Underground.

Seranton, Pa., April 8.—At least six-
ty mine workers, of whom several
were boys, lost their lives in a fire in
the Dunmore vein of the Pancost col-
liery at Thorp. The work of rescue is
still in progress.

Three bodies have been carried to
the surface, two men and a boy, and
there is scarcely a chance that any of
the entombed men will be found alive.
Most of the men in the mine are for-
eigners. Several mine officials, how-
ever, are among the victims.

Those known to be in the affected
chamber are: Walter Knight, mine
foreman; Isaac Dawe, fire boss;
George Ballog, miner; Adam Kasee,
miner; Stephen Olroky, driver boy.
The Dunmore vein is 750 feet below
the surface, which greatly impedes the
work of rescue.

The colliery is owned by the Scrant-
on Coal company, affiliated with the
New York, Ontario & Western com-
pany. The fire originated from some
unknown cause in the engine house at
the foot of the shaft about 10 a. m. At
the time there were 300 men and boys
in the various veins and chambers.
The flames ignited accumulations of
gas, which increased the difficulty and
doubtless increased the loss of life.
About the head of the shaft were
gathered thousands of people. Ropes
had to be stretched to keep back the
crowd and to prevent a stampede
when the bodies were brought out. The
company officials acted with the great-
est promptness when they learned the
extent of the disaster, but once started
the fire spread with great rapidity. It
caught on the timbering of the shaft
and ran along the gangway.

As soon as it was seen that the fire
was baffling efforts to subdue it, word
was sent for the government rescue
car at Kingston, sixteen miles from
here, and this responded, bringing
four men equipped with apparatus for
penetrating into smoke and fire damp.
This was the first test of the rescue
car and its crew. The helmeted men
were the only ones that could pene-
trate into the affected gangway up to
a late hour, and they recovered the
bodies found.

The only man brought out alive from
the zone of the fire was Joseph Vick-
ers, a fire boss. Shortly after 10
o'clock Vickers, finding the fire was
becoming dangerous, accompanied by
a companion ran down the gangway to
give the alarm. Before they had gone
far their lights went out. Vickers re-
alized his danger and started back.
He missed his companion. He man-
aged to get by the worse place on his
return, but had gone only a little way
beyond it when he was overcome by
smoke. Hours later he was found by
the fire fighters.

LATE DISPATCHES SAY OVER HUNDRED MAY BE FOUND KILLED

Seranton, Pa., April 8.—Special.—
Seventy bodies have been recovered
from the Pancost mine at Thorp.
Mine officials admit that many more
men, perhaps 90, still may be in the
mine, making the disaster far more
than anticipated.

MICHIGAN MIGHT QUALIFY.
We approve the following editorial utterances of the Toledo News-Bees:
They Will Face the Music.

"No more 'fooling the people' in California. Members of the legislature can no longer spend the winter serving the corporations, and then spend the summer jollyng their constituents and telling 'What I done for the deestrick'."

Governor Hiram Johnson said at the beginning that he would render a report at the end of the session showing precisely how each senator and assemblyman had voted on important measures. And he hasn't forgotten. He says:

"I am going to make this my personal duty. Within a few weeks I shall undertake to call the roll of the legislature throughout the state. I shall go into every district and tell the people as plainly, as frankly and as fairly as I can how the men they sent to represent them served them."

The performance of this self-imposed duty means lots of hard work and travel, for California is a big state, second only to Texas. But is it not a service as valuable to the commonwealth as any of the constitutional duties of the governor?

The people have been betrayed again and again in every state by their trusted representatives. The time has come when these misrepresentatives must face the music.

The Johnson idea should spread—that is, if the rest of the states can find Johnsons to do the job."

Most of the states, we fear, haven't the Johnsons on the job. But we think Michigan might qualify. And if the people could have reflected in time to be of service the real attitude of their representatives during their term of service, in addition to their record when the vote was taken, this would be of far greater value.

Many a misrepresentative has voted right and worked wrong, thus fooling his constituents while he gets away with the consideration for his hypocrisy. In other words he knows what his constituents want and what they will not stand for. To satisfy them he votes the way they want him to vote, but quietly goes over to the enemy and helps it to kill the very measure he votes for—or possibly arranges with the enemy that he be "unavoidably absent" when the vote is taken. And the representative will profit by this publicity by having his fidelity published as much as the misrepresentative will be damaged by having his infidelity published. "By their works we know them"—and no one need worry unless he wishes his works to remain unknown.

The general election returns seem to indicate that the Anti-Saloon League won in the ratio of 5 to 4.

HE BROKE THE ENGAGEMENT

Cruel Misunderstanding Disrupts Matrimonial Plans of Count and Chicago Girl.

The sudden death in New York of Sir Clifton Robinson, "the traction king," was being discussed in a New York club.

"Sir Clifton Robinson," said a New York man, "built miles and miles of street railways in this country. He liked this country. He especially liked our young men."

"I once heard him say that our young men were not mercenary—that it was practically unknown for an American young man to marry for money. But a young foreigner, he declared, would marry his grandmother if there was a hundred a year in it."

"A Chicago woman on a liner, he said, once remarked:

"Yes, Mabel was engaged to be married to a handsome young count she met in Budapest last summer; but there was a cruel misunderstanding."

"Indeed, how was that?" asked another woman.

"The count," was the reply, "understood her father was a multimillionaire."

RADIANT HAIR

Any Woman Can Have It by Using Parisian Sage.

Madam: If your hair isn't just what you would like it to be why don't you use Parisian Sage.

If it does not put life and lustre into the hair and cause it to grow abundantly you can have your money back from Duane Spalsbury.

"I cannot say enough in its favor. Two years ago I lost all my hair, I saw Parisian Sage advertised and thought I would try it. Before I had finished using the first bottle my hair had stopped falling and my head was covered with new hair; also removed all dandruff, and today I have a lovely head of hair."

"I think Parisian Sage the best hair restorer and dandruff cure in the world today. It also makes the hair clean, fluffy, and silky, and I would recommend it to every one who wishes a hair restorer and beautifier." Miss Mary E. Dickerson, 287 South Ave., Bridgeton, N. J., 1910.

For men, women and children, there is no hair preparation that equals Parisian Sage; it never disappoints; it does just what the American makers advertise it to do. It banishes dandruff, kills the dandruff germ, stops falling hair or scalp itch, or money back. Sold by Duane Spalsbury and druggists everywhere. Large bottle 50 cents.

Product of a Miniature Garden.

By Professor R. S. Shaw, Dean of Michigan Agricultural College.

This little piece of ground is 16.5 ft. wide and 33 ft. long, comprising exactly two square rods, or one-eighth of an acre. The garden was established chiefly through curiosity to find out how much vegetable material could be produced from a small area under an intensive system of cultivation, but in addition to this, it soon became a source of pleasure and satisfaction as a pastime at which to spend the few leisure moments after the day's work.

The produce was carefully weighed on an accurate pair of spring balance, is gathered for use. The various articles were weighed in the form in

A Miniature Garden.

which they would be prepared for sale on the market.

The following is a list of the products of the garden during the summer of 1907, viz: Cabbage, 149.25 lbs.; tomatoes, (both ripe and pickling), 95.75 lbs.; squash, 87 lbs.; carrots, 67.5 lbs.; parsnips, 64 lbs.; beets, 45 lbs.; cucumbers, 41 lbs.; beans, 30.5 lbs.; vegetable oysters, 27 lbs.; early radish, 23.75 lbs.; corn, 12.5 lbs.; lettuce, 12 lbs.; winter radish, 6.5 lbs.; peas, 6 lbs.; and seed onions, 1.75 lbs., making a total of 669.5 lbs.

The area of the garden being one-eighth acre and the yield of edible material 669.5 lbs., the rate of yield per acre would be 26.75 tons.

This year the planting was done between May 18th and June 6th. No water was applied artificially. The first year's conditions for rapid growth throughout the season were phenomenal.

Best Varieties of Apples For Market.

If contemplating raising apples for market, the following varieties are suggested: Yellow Transparent Duchess, Gravenstein, Wealthy, McIntosh, Fameuse, Hubbardston, King, Grimes, Jonathan, Spy, Baldwin, Greening, Red Canada.

General Treatment For Grapes.

Bordeaux mixture for black-rot. Spray when the shoots are about eight to ten inches long.

Just before blooming and just as the blossoms fall, spray Bordeaux mixture for black-rot, with poison for the grape-berry moth and rose-chaffer.

About ten days or two weeks later spray Bordeaux mixture and poison for black-rot and berry-moth. The

Equipment For Spraying Orchards.

need for this spraying depends upon the weather conditions and the amount of rot prevalent in the vineyard. If it is thought advisable to make later sprayings, some material should be used that will not stain the fruit.

In vineyards where the grape berry moth is serious, spray with Bordeaux and an arsenical poison during the middle of July, before the 20th.

This appliance is admitted by those competent to judge to be the greatest advance made in years in the successful treatment of Rectal trouble. It combines effectively the principles of dilation and medication. The dilator causes no discomfort; on the other hand, it supports the muscles in such a way that it causes great relief. The healing ointment secreted by the dilator is applied directly to the affected parts, and removes all inflammation and soreness.

Those who suffer from chronic constipation and the resulting nervousness may obtain quick and permanent relief by using the NATURA DILATOR.

If you have found it necessary to resort to drugs for this complaint, try the Natura treatment, and experience the delightful results obtained.

Which is the STIFF STAY Fence?

This picture shows why Jackson Stay Fence is the best. The Stay wires are made from the same gauge (size) hard steel wire as the lateral. The Jackson knot is made from the same material and holds both in a grip that never loosens. The whole fence is stiff and strong, and being made with mechanical accuracy it always "sets right." Goes up or down hill as smoothly as on the level. No uneven line wires.

NO REASON FOR IT.

When Ypsilanti Citizens Show the
Certain Way Out.

There can be no just reason why
any reader of this will continue to
suffer the tortures of an aching back,
the annoyance of urinary disorders,
the dangers of diabetes of any kid-
ney ills when relief is so near at hand
and the most positive proof given that
they can be cured. Read what an Yps-
ilanti citizen says:

Charles Fletcher, 415 W. Congress
St., Ypsilanti, Mich., says: "As the
result of kidney trouble, my health
became much run down. I was bother-
ed a great deal by pains in the
small of my back and kidney's and I
attributed my complaint to constant
riding on the wagon. When I was
on my feet I did not notice the trou-
ble so much. The kidney secretions
were too frequent in passage and
highly colored. Reading about Doan's
Kidney Pills I was led to procure a
box at Weimann-Matthews, Co.'s
Drug Store and begin their use. I
was careful to follow the directions
closely and I received relief in a
short time. Since then I have been
in the best of health."

Woman's World

Mrs. Harvey W. Wiley, Bride
of the Pure Food Crusader.

© 1911, by American Press Association.

MRS. HARVEY W. WILEY.

At the age of sixty-seven Dr. Har-
vey W. Wiley, chief chemist in the
department of agriculture and chief
crusader in the United States for pure
food and drugs, at last has taken out
himself a wife. His marriage to Miss
Anna Campbell Kelton of Washington
was an event of national importance.
Some of the jokesmiths are expressing
the hope that the new Mrs. Wiley is a
good cook, for Dr. Wiley certainly de-
serves a wife who, if she does not ac-
tually do the family cooking, is capa-
ble of supervising the work scientifi-
cally.

Mrs. Wiley is the youngest daughter
of the late Brigadier General John O.
Kelton, who was governor of the Sol-
diers' home at Washington at the time
of his death. She is president of the
Woman's Suffrage league of the Dis-
trict of Columbia. For several years
she has held an important position in
the library of congress.

It is gratifying to note that "a break-
fast followed the wedding ceremony,"
after which Dr. and Mrs. Wiley start-
ed on a bridal tour to last several
weeks. Mrs. Wiley's age is less than
half that of her husband. Dr. Wiley
is "the man who led the crusade
against food and drug adulteration
which resulted in the enactment by
congress of the measure known as the
pure food law. This law requires the
labeling of all food packages so that
the buyer may know the exact nature
of the contents. Recently Dr. Wiley
in a speech declared that this is an
overdrugged nation and also that al-
cohol is harmful, and the prohibition
of the liquor traffic would be a bless-
ing to the world.

Extravagance Then and Now.
It is very much the fashion to berate
modern woman about her extrava-
gance.

When you can't scold a woman about
anything else, when you have wasted
all your ammunition against freak
fashions and other pet feminine fol-
lies, then it is considered timely to
scold women for the reckless way in
which they spend money nowadays.
And you always add "nowadays," just
as if the grandmothers were always
frugal.

The "nowadays" is rather unfair. It
is safe to assert that there have al-
ways been feminine spendthrifts as
well as those who were careful and
conscious in the expenditure of
money.

The wardrobe excesses of Josephine
form appalling reading, with their
hundreds of sets of things, and evi-
dence more than anything else the vul-
garity of the parvenu.

Maria Theresa, the second wife of
Napoleon, on the other hand, conduct-
ed her expenditures on moderate lines,
although springing from one of the
most ancient courts of Europe.

Extravagance is not necessarily an
appanage of rank. It is, as a rule, the
outward and visible sign of the man
who has made riches quickly and who
desires that his women folk should
blazon it forth to the world by run-
ning through the whole gamut of mod-
ern pleasures in the most costly pos-
sible way.

Rose Hats For Spring.

Some of the new spring hats are al-
ready on exhibition in the exclusive
shops, and among them is the flower
hat. Roses of all kinds and sizes seem
to be the most popular flower used.
Some of these roses are made of gros-
grain ribbon with a picot edge set off
by leaves and stems of ribbon of the
same shade as the flower. Large and
small roses are often used on the same
hat. The soft pastel tones of blue, pink
and green bid fair to be favorites. On
some of the large hats the wreath of
roses is veiled by malines, and on some
of the models valenciennes lace is
used to set off the beauty of the roses.
Among the small flowers used are the
forget-me-nots, lilies of the valley and
heliotrope. One of the handsomest of
the spring models has a long wreath of
forget-me-nots which are made of old
gold velvet. Rosebuds of pink and blue
chiffon are also used on some of the
advanced models.

In case of rheumatism relief from
pain makes sleep and rest possible.
